Mr. Kermit Geary
1266 Riverview Drive
Walnutport, PA 18088

Dear Mr. Geary,

Thank you for your recent letter verifying hearing WCPE Radio. The logging information which you furnished was correct and I am happy to verify that.

By now, you probably realize that a number of educational radio stations relay our programming. You were most likely listening to WVMM from Grantham. You may have heard their top-of-the-hour station identification since you wrote us.

We offer our programming without charge or royalty to non-profit stations who are not in a position to program their own stations around the clock. We believe it helps the local station gain a better listenership because they do not need to go off the air, and it helps us fulfill our Mission to make *Great Classical Music* available to everyone 24 hours a day.

The stations receive our signal from standard audio subcarriers broadcast along with WGN-TV on the Galaxy 5 Satellite. Anyone with C-Band (big dish) home satellite equipment can listen to us. Our signal reaches Chicago over our digital signal on the GE-4 satellite, which originates at our studio and is transmitted directly to the satellite over our own uplink; this ensures the best fidelity possible. We're also available over the internet in several formats and data rates, start at our home page at <wcpe.org> and we guide you from there.

You did hear our station, however, it went over an extra 100,000 mile route which you didn't expect! I still consider this a good report, though, we're happy to know you listened.

Sincerely,

Deborah S. Proctor
General Manager

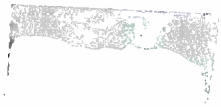
Please confirm my reception of WCPE (FM) on 90.3 megaHertz if the program description is correct. Your verification of the fact that I heard your broadcast on the morning of Saturday, November 13th, will be greatly appreciated for inclusion in my reception records. Return postage is enclosed for your reply. I would also like to know your transmitter power and the location of your antenna in the greater Raleigh area. Thank you for your response to this inquiry.

Best wishes to you, sir, and to WCPE for continued success in good music programming. I hope to hear your signal again when atmospheric conditions are favorable. I look forward to receiving your reply in confirmation of my reception of WCPE, which is deeply appreciated.

Very truly yours,



Kermit Geary
